## Micro-Touch<sup>®</sup> Nitrile

Powder-free nitrile non-sterile  
examination glove

## New white nitrile glove: optimised allergy prevention and comfort, with economical packaging

Today, healthcare workers are highly aware of the risk of Type I allergies resulting from exposure to latex. Made of 100% nitrile, Ansell's Micro-Touch<sup>®</sup> Nitrile glove contains no natural rubber latex and is powder-free. It provides an effective barrier protection against punctures and a wide range of chemicals while

the white colour reveals soiling and contamination. Together with easy donning, high comfort and sure grip, these qualities make Micro-Touch<sup>®</sup> Nitrile the optimal choice for many healthcare professionals. Moreover, the 150-count packaging reduces waste and saves on costs.

Every Healthcare Professional  
deserves **Optimal Protection**

## MICRO-TOUCH®

### Ansell Micro-Touch® examination gloves

The Micro-Touch® range of gloves includes versatile and innovative products covering all examination applications, with a solution for each specialty. Ansell has been especially attentive to customer requirements regarding barrier protection, comfort, guaranteed length, wide size range, raw material formulation and easy dispensing.

In the design and manufacture of the Micro-Touch® range, Ansell has drafted strict technical specifications. This ensures the high quality and consistency of all Micro-Touch® products. Proof of this can be found in the values for AQL, force at break, length and protein levels.

### ANSELL MICRO-TOUCH®

Because every healthcare professional deserves optimal protection.

New white nitrile glove: **optimised allergy prevention and comfort, with economical packaging**

### APPLICATIONS

- All non-sterile medical procedures requiring barrier protection
- All applications requiring latex allergy prevention for healthcare workers and patients (e.g. oncology, paediatrics).

### MINIMISES TYPE I ALLERGY RISK

- Made of 100% nitrile, Micro-Touch® Nitrile gloves are free of natural rubber latex and powder, minimising the risk of Type I allergies.

### ADVANCED BARRIER PROTECTION

- Micro-Touch® Nitrile meets or exceeds all applicable European safety standards.
- Nitrile offers better chemical resistance than vinyl or natural rubber latex (for the same thickness).
- The white colour provides a high-contrast background that reveals soiling and contamination.

### Micro-Touch® Nitrile

Powder-free nitrile non-sterile examination glove

### LATEX-LIKE COMFORT AND SAFE HANDLING

- Micro-Touch® Nitrile provides latex-like comfort. 'Thermo-elastic' material that adapts to the hand's shape assures even more comfort.
- An inner polymer coating facilitates donning, while the lack of powder considerably reduces the risk of skin abrasion.
- Micro-textured finger surfaces ensure a good grip on instruments.

### ECONOMICAL PACKAGING

- Micro-Touch® Nitrile comes in economical 150-count packaging with 50% more gloves per dispenser box.
- Stock management is more efficient: less time is spent replacing dispensers and handling boxes (2 boxes instead of 3).
- Reduced packaging waste.

### Specifications

Size	X-Small	Small	Medium	Large	X-Large
Code	700151	700152	700153	700154	700155

### Packaging

X-Small to Large: 150 gloves per box, 10 boxes per carton.

X-Large: 120 gloves per box, 10 boxes per carton.
